# Greetings 1959

Greetings to all our iris-loving friends everywhere, and many thanks for the good business you gave us last year. A casual glance at our new catalog will convince you that prices are much lower this year. This should be a good year to start a new iris garden, or add to your collection a few of the newer creations.

You will find many new varieties listed and of course these scarce varieties might not be available late in the season. We advise July planting as the best; we believe the plants get a better start, so you can count on a larger per cent of blooming the first year.

Read over the following bonuses carefully. We could make up "collections," but by allowing you a bonus on anything in the catalog you can make collections of your choice. You buy only what you want; and all at reduced prices.

Orders from \$5.00 to \$ 9.99 select 25% more iris value.

Orders from \$10.00 to \$19.99 select 30% more iris value.

Orders from \$20.00 to \$49.99 select 40% more iris value.

Orders from \$50.00 to any larger amount select 50% more iris value.

---

**All bonus iris must be selected  
from iris listed at \$4.00 or lower.**

---

## Bonus For Early Orders

Any order received by June 15, 1959 will receive free (in addition to the regular bonus) a root of GARNET FLAME (De Forest 1952). M. 38 inches. A brilliant flower with standards of russet flushed wine red, and deep russet gold falls heavily overlaid garnet brown. Rich gold beard. List price \$1.50.

## Guarantee

All our stock is state inspected and we guarantee to supply clean, healthy roots, true to name. Adjustment will be made wherever any dissatisfaction occurs.

## Terms

Cash with all orders to be shipped. Orders called for may be paid at that time. **ON SHIPPING ORDERS LESS THAN \$3.50 ADD 50c TO COVER PACKING AND POSTAGE.** Orders will be filled from July 10th to September 15th.

## Culture

It is a mistake to assume that because iris are extremely hardy that they will not respond to a careful cultural plan. Above all, iris must have full sun and good drainage—given such conditions many of your iris troubles will be averted. Keep all dead leaves and litter removed—these breed disease. Iris will thrive in any ordinary garden soil. A good plan for the fertilizing of iris is to apply gypsum or lime in the spring, superphosphate after blooming, and a feeding of bone-meal in the fall. Larger blooms and more vigorous plants will be your reward.

## Iris For Landscaping

We are not listing what we have left of our older varieties, but we have abundance of iris suitable for large plantings. If you order in lots of ten of any one named variety, we can furnish you many colors. The price would be \$1.00 for ten of any one kind sent postage or express collect. Or write us your special needs and we will make a quotation.
